

Training - Implementation of Environment Management Plan

Orientation training for implementation of Environment Management Plan was conducted by Punjab Roads and Bridges Development Board (PRBDB) for all Periodic Maintenance Work, Contractors and Contract Management Unit (CMU). The training was organized at Punjab Roads and Bridges Development Boards office on 5th October 2006.

The main objective of the training can be summarized into;

- i. To create awareness among the CUM engineers and Contractors
- ii. To generate the feeling of responsible for successful implementation of EMP as teamwork (CMU engineers and contractor).
- iii. To make CMU and Contractor aware of the clearances and approval required by Contractor prior to any Construction work.
- iv. To update and alert both CMU and Contractor about the extent of documentation that will be required during the course of EMP implementation.

The training started with description on:

- ☞ How the environment components got integrated with Engineering and Economic study of the project.
- ☞ The various stages which were undertaken for formulation of Environment Management Plan were described during the session.
- ☞ Need and Purpose of Environment Management Plan was also highlighted.
- ☞ The components of EMP covered under Periodic Maintenance Work were described out in detail with reference to the clauses in the EMP attached in the Bid Documents.
- ☞ The contractor was also informed of the various clearances that would be required prior to starting of the Construction work.
